

GARY NANCE DESIGN

Gary Nance offers more than 30 years of design experience to clients.

Gary brings a fresh mix of classic style, emphasizing functional design plan and architectural details. Working closely with clients and contractors, Gary incorporates the design integrity through the design and construction phase of each project.

Current projects include summer cottages at Lake Maxinkuckee and Lake Wawasee in Indiana. Gary has also designed homes in Leland, Petoskey, Harbor Springs, Higgins Lake and Walloon Lake in Michigan. In addition, he is working on a family retreat in the Pennsylvania Highlands, a hunting lodge on a 12,000 acre ranch near Dallas, a home in the mountains of Montana and a southern classic in Naples, Florida.

Gary was selected by Midwest Living Magazine to design their 20th anniversary Idea Home. He has also been featured on the cover of several Better Homes and Garden publications and local magazines such as House Trends, Indianapolis Monthly and the Indianapolis Business Journal. In addition, the June 2010 issue of Architectural Digest Country Home featured a kitchen recently completed. Gary has also been featured in the June/July issue of Traditional Home featuring a cottage he designed on Lake Maxinkuckee in Culver, Indiana.
